

HOT LAKE

Oregon's Great Natural Wonder—Many Acres of Hottest Spring Water on Earth—Marvelously Curative.

STEAM ARRIVING FROM HOT LAKE—VIEW OF SANATORIUM, HOT LAKE, ORE. 9000 ALTITUDE 5,000 FEET.

A wonderful water and rest cure. A beautiful health resort. Cool in summer—mild in winter.

Hot Lake is to the west what Arkansas Hot Springs are to the East. It is in the Grand Basins Valley, on O. R. & N. railroad, 200 miles from Portland. For ages it has been known as "The Big Medicine" of the Indians. Flow 2,200,000 gallons per day, boiling hot—near the hottest spring water in the world. The water is clear as crystal. The mineral in the water is in such perfect solution that no particle of precipitate will fall, even after standing for days. Marvelously curative in disease of stomach, bowels, liver, bladder, skin and blood; also in rheumatism, catarrh, neuritis and other nervous troubles. Every up-to-date convenience and equipment of a high-class, modern hotel.

Hotel, \$10.00 to \$15.00 per week. Bath, single bath, 25 cents; one week, \$1.50; three weeks, \$3.50. Food, \$4.00 per week.

The Wonders Of Hot Lake, Ore.

It is Sixty Degrees Hotter Than the Famous Hot Springs of Arkansas.

Dr. G. W. Tape, of Hot Lake, Ore., is in the city at the Perkins. In an interview yesterday the doctor said:

"I am here calling on the physicians of your city and find them a fine lot of fellows. I am acquainting them with the peculiar advantages of our sanatorium for their patients. My partner, Dr. Phy, and myself are regular ethical physicians, and work in perfect harmony with the medical profession."

"You see there are a great many cases which are not benefited by any medicine, while another set of cases will be benefited, but not wholly relieved. These are the ones the physician sends to our springs. As if it were a special dispensation of divine providence, these are the very cases that make such remarkable recoveries under our treatment."

"We have accommodations for about 125 now, and have been enlarging and improving the sanatorium ever since we opened two years ago. Eighty thousand dollars was spent last year in a new hotel and bath-house. There is really nothing to compare with it at any springs west of the Rocky mountains."

"Our water is stronger than that of the Arkansas springs, and we have over three times as much of it, and it is 60 degrees hotter than their hottest spring in Arkansas."

"Every patient is examined thoroughly without cost before he can take his baths, and the kind of bath he takes and the quantity of water he drinks is prescribed by the physician from day to day."

"The fact is, we are paying every attention, not to the man who wants a blowout, but to the one who wants his health."

"Plans are being drawn for another new hotel to join the present one, which, when completed, will double our accommodations, as our largest trade is in the winter and fall."

Hot Lake is on the main line of the O. R. & N. near Pendleton, Ore., and was discovered by the Astoria expedition in 1811 and described by Washington Irving in "Astoria."

Dr. Tape will be in the city the greater part of this week, calling on the physicians and friends—Oregonians.

BUCKLE'S ARNICA SALVE.

WARRENTON MILL MEN MEET.

There was a business meeting of the stockholders of the Warrenton Lumber Company, at Warrenton, yesterday. This was the first meeting of the stockholders since the death of D. K. Warren. The loss of Mr. Warren, while deeply regretted by the other members of the corporation, will not interfere with the progress of the work on the mill. George, a son of the late lamented D. K. Warren, will represent his father in the enterprise and the mill will be hurried to completion. The frame work is now up and the work of covering the structure will be begun in a few days. The stockholders are well satisfied with their enterprise and expect to have the mill turning out lumber before spring.

Hand detachable umbrellas for ladies and gentlemen at Herman Wise's. Try one and you will never want the old style.

WHAT IS LIFE?

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in constipation, headache or liver trouble. Dr. King's new life pills quickly re-adjust this. It's gentle, yet thorough. Only 25c at Chas. Rogers' drug store.

Five thousand Laimperial's sold by J. V. Burns during the month of September, this year, an increase of 1,000 over August.

BANQUET FOR CHARLES HALDERMAN.

The Walloway Club gave a banquet at the Occident last night to Charles W. Halderman, who leaves for Washington shortly to assume his duties as Senator Fulton's private secretary. Members of the club and a few invited guests were present.

FEARFUL ODDS AGAINST HIM

Bedridden, alone, and destitute. Such in brief was the condition of an old soldier by name of J. J. Havens, Versailles, O. For years he was troubled with kidney disease and neither doctors nor medicines gave him relief. At length he tried Electric Bitters. It put him on his feet in short order and now he testifies: "I'm on the road to complete recovery." Best on earth for liver and kidney troubles and all forms of stomach and bowel complaints. Only 50c. Guaranteed by Chas. Rogers, druggist.

DISTILLERY BOILER BURSTS

Seven Killed and Five Injured at Peoria, Illinois.

Peoria, Ill., Oct. 1.—Seven were killed and five others injured by an explosion at Corning's distillery here today. One large section of a five story building was thrown into the air by the bursting of a copper cylinder 20 feet in length and eight feet in diameter. Every man who was in the building at the time of the explosion was instantly killed, the injured being men who were on the outside. The great cylinder of copper crashed through the east wall of the boiler room and on through the mill, as though the wall had been but tissue paper and landed 265 feet away from the start of its flight.

SERIOUS CAR FAMINE.

Chicago, Oct. 3.—The "airroads of the entire country are face to face with what promises to be the greatest car shortage in their history. Despite the fact that most liberal orders for new equipment have been given by all the railroads during the last 12 months they now find themselves unable to accept all the traffic that is offered.

The condition of affairs is outlined by Vice-President W. C. Brown of the Lake Shore who says that the company is in urgent need of 1600 box cars daily. On other systems with a much greater mileage than the Lake shore larger number of cars are needed for immediate use.

MAYOR TRUE TO UNIONISM.

New York, Oct. 3.—While Steven Charters, the labor mayor of Ansonia, Conn., and another carpenter were laying steel beams in a new house in Ansonia, a walking delegate of the Iron Workers' union of New York, asked them to quit work on the ground that such work was for ironworkers only. Charters and his fellow workman stopped immediately. The mayor explained that he did not know he was violating union rules.
